elcome to our Department and to our programs in Criminal Justice, Cybercrime and Homeland Security, and Sociology!

We appreciate the chance to share a little about our recent accomplishments as you consider the University as your academic home for the next few years. But first, we would like to offer a few things that distinguish us from other types of similar academic institutions and programs:

- A flexible curriculum that allows students to take advantage of multiple outstanding internship opportunities for credit and encourages them to complete a minor or double major;
- Collaborations with the University's Chemistry Department (Forensic Chemistry major) and Business School (Forensic Accounting track and Business Syr BS/ MS program);
- Nationally and internationally known faculty with experience in the field;
- An active Criminal Justice Student Club that regularly brings in speakers, coordinates off-campus trips, and engages in community service;
- One of only nine criminal justice undergraduate programs in the United States to obtain certification from the Academy of Criminal Justice Sciences (ACJS).
- Our Center for the Analysis & Prevention of Crime (CAPoC) and the Cybersecurity and Forensics
 Lab give students the chance to work with faculty and practitioners on research and skills that are
 pertinent to their future professional fields.
- A Catholic and Jesuit University that is based on a 450 year-old intellectual tradition that strives for excellence and cares for each and every student.
