

Welcome to our Department and to our programs in Criminal Justice, Cybercrime and Homeland Security, and Sociology!

We appreciate the chance to share a little about our recent accomplishments as you consider the University as your academic home for the next few years. But first, we would like to offer a few things that distinguish us from other types of similar academic institutions and programs:

A flexible curriculum that allows students to take advantage of multiple outstanding internship opportunities for credit and encourages them to complete a minor or double major;

Collaborations with the University's Chemistry Department (Forensic Chemistry major) and Business School (Forensic Accounting track and Business 5yr BS/MS program);

Nationally and internationally known faculty with experience in the field;

An active Criminal Justice Student Club that regularly brings in speakers, coordinates off-campus trips, and engages in community service;

One of only nine criminal justice undergraduate programs in the United States to obtain certification from the Academy of Criminal Justice Sciences (ACJS).

Our Center for the Analysis & Prevention of Crime (CAPoC) and the Cyber-Forensics and Cybersecurity Lab give students the chance to work with faculty and practitioners on research and skills that are pertinent to their future professional fields.

A Catholic and Jesuit University that is based on a 450 year-old intellectual tradition that strives for excellence and cares for each and every student.
